EDUCATION :

2021 – 2024   **Open University (Avg. Grade 83) – Final year Computer Science student**
- I have only one semester left to complete to get my BSc in computer science.

2012 – 2015   **Nachshon Technology and Science High-School**
- ✓ 10 Study units – Computer science (91) + Network Services(100)
- ✓ 5 Study units – Math (97)
- ✓ 5 Study units – English (92)

WORK EXPERIENCE :

2021 – 2023
2 yr   **Full Stack Developer (MERN Stack) - Conversion Bear (Sold to Apphub)**
- Developed features, fixed bugs for Shopify apps.

2020 – 2021
1 yr   **QA Specialist - Orbotech (KLA)**
- I took a part in developing new advanced Automated Optical Inspection machines for the PCB industry, wrote test scripts for new app developments, and solved crucial problems for the company by giving investigating issues.

2019 – 2020
1 yr   **Manager, Welder - Shilat's Welding**
- Involved managing a range of manufacturing projects, building relationships with suppliers, business marketing, employee management and bookkeeping.

2015 – 2016
1 yr   **Manager - IT Help Desk**
- Used troubleshooting skills to diagnose and repair PCs, Laptops, and projectors.

ISRAEL DEFENCE FORCES :

2016 - 2019
3 yr   **Egoz Unit**
- Completed a range of courses including Anti-terror, Snipers and Commanders course.
- Signed extra time to serve as Head of Camouflage Department where I taught camouflage skills to new recruits, audited equipment and explored, tested, and implemented new technologies.
- Reserve duty advising senior commanders looking for camouflage techniques to use in operations.

ACHIEVEMENTS :

2013 - 2014   **1st (2013) and 2nd (2014) place in Microsoft "Innovate for good" competitions.**
- Involved working as part of a team of programmers, designers, and entrepreneurs to develop an app compatible with "Windows 8 Smartphone".

SKILLS :
- ✓ JS, React, Node, MongoDB, SQL, OOP, Java, C#, C++, Python, Computer Vision, ASP.NET, CSS, HTML
- ✓ Shopify DEV, Photoshop, Illustrator, Figma, Git, Excel

MY MAIN PROJECTS :

"Mate: Back in Stock Alerts" -   **4.9 ★★★★★**   apps.shopify.com/notify-mate-price-drop-alerts

- Application built for Shopify merchants to increase sales by retrieving lost customers.
- The app adds a button "Notify me" for every product page.
  Customers sign up to the app service to get notified when the product they want is back in stock /price drop.
- This is the best project I've ever created all by myself using MERN stack, designing skills, and planning.

"Clean Head"
- Web software that effectively links teachers and students. C#, Asp.NET, JavaScript SQL,
- This software is used by teachers to insert students' grades at school.
  In addition, you can view a student behavior sheet, schedule, vacation schedule, and homework to do.

LANGUAGES: Hebrew: mother tongue, English: Fluent in speaking reading and writing.
